Best Sellers Rank: #211,480 in Books (See Top 100 in Books) #4 in [Books > Crafts, Hobbies & Home > Antiques & Collectibles > Coins & Medals > World Coins](#)

Customer Reviews

This book identified a 1612-13,spanish netherlands gold half sovourain d'or from Tourai county, very rare coin 5,188 mintage, that was not listed in any other standard cat. of world gold coins. The book has paid for itself already with this coin i.d... I highly recommend this reference book if you want a really in depth world gold coin reference book, then you will need it, too. Just an excellent reference book, thanks, Joe Liverman

First, off, if you would like full color, buy a later edition. This book goes into such specifics as fractional privately minted coins from US territories and siege coins. I was a bit surprised, but there is at least one country heading (for a small island country) that has another countries coin listed. This may be fixed in later editions. Overall this is a great source of basic, and sometimes in depth, information on gold coins from 1601-2009.

Thanks

Book is VERY large. Make sure you've got shelf space!

It is a new one and only the cover worn out a little.

It's a great considering how extensive this book is. If it's gold, it's there. The shipping was fast, and cheap for such a large book.

This is like a bible for world coin collectors. Detailed listings are in this book. Not much else to say.

Very good, but very old info and pricing.
