Customer Reviews

Created by Yasmeen Eldahan, aka YamPuff, a coloring book and digital stamp artist whose art has been colored in by colorists around the world!

I am 31, and I absolutely loved this book, I have the color charts book and prompted me to get this one. So glad I did it's fun, whimsical and unique. I just wish the pages were perforated to remove easier. Other than that the pages are a little thin. Overall the design and images are worth the drawbacks I would recommend this to anyone at any age.

My daughter absolutely loves every page of this book. She is addicted to coloring these. This purchase is completely something I cannot see anyone regretting.

Every page just makes me so happy to color! It just gets even more adorable when it's colored. I love that each design doesn't have a double front and back side print so I can slip a folder under each page and not worry about bleeding with markers and ruining another image. Absolutely worth every penny and her inspiration for each picture on the back I found really cute and helped me envision colors better too.

“Carousel Dreams” is a Manga style coloring book with 24 cute designs. The designs are either of carousel animals or of the Rose Princess that YamPuff (the artist) has dreamed of having inhabit her world. In addition to the designs, the title page can be colored as well. The designs are especially cute and fun to color. The designs have a bit of detail but are not intricate and don't have tiny spaces which required unusually small nib pens. A few of the pages have a couple of intricate spots (such as on the carousel mandala or some of the smaller detailed designs on the Rose Princess dress). Each of the design pages has a short blurb on the back which explains the thoughts behind each particular design. It was interesting reading what the artist had in mind been creating the design. This is what I found while coloring in this book and testing the paper with my various coloring medium. In the comments section below, I will list the coloring medium I use for testing and for coloring. 24 Carousel inspired Designs done in Manga style plus title page that can be colored as well. Printed on one side of the page. Paper is typical for CreateSpace publications. It is thin, white, slightly rough and is non-perforated. Glue Binding. Three designs merge into the the binding area but nothing essential to the design would be lost if you cut those pages out. Coloring book can be opened fairly flat for easy of coloring. Alcohol-based markers bleed through the paper readily. Water-based markers bleed through in spots but can still damage the page below. Gel pens and India ink pens leave discernible shadows of color on the back of the page. India ink can bleed through in spots if you apply heavily or with multiple layers. Colored pencils work well with this paper. I tested both oil and wax based pencils and found that they both work well with providing good color pigment, can layer same or multiple colors well and blend easily using a blending stick. Hard lead pencils dent through the page. I use card stock as a blotter under y working page with all CreateSpace publications. It keeps ink and dents from damaging the pages below. A couple of sheets of heavyweight paper work as well, too.

I received a copy of this book from the author for review, and I had no idea what kind of book it was or anything... when I received it in the mail, I literally squealed like a little girl!! These pictures are SO ADORABLE!!! Each picture is of some type of animal or cute person with a carousel theme. Each image is so cute, they take you to a whimsical fantasy daydream land, which apparently is exactly what the author had hoped for, since she called the book *Carousel Dreams*! In addition, the back of every image contains commentary from the author about the meaning behind the picture! No other coloring book has this, that I've ever seen! You get to peek inside the mind of the artist!!! I've attached a picture that I colored from the book - of a mermaid-carousel-sea-pony! I can't even stand the cuteness!! :D I will be following up with a video flip-through shortly. I highly recommend this book for anyone of any age or coloring ability!
