There's No Place Like Space: All About Our Solar System (Cat In The Hat's Learning Library)

Synopsis

Au revoir, Pluto! In this newly revised, bestselling backlist title, beginning readers and budding astronomers are launched on a wild trip to visit the now eight planets in our solar system (per the International Astronomical Union's 2006 decision to downgrade Pluto from a planet to a dwarf planet), along with the Cat in the Hat, Thing One, Thing Two, Dick, and Sally. It's a reading adventure that's out of this world!

Book Information

Lexile Measure: AD520L (What's this?)

Series: Cat in the Hat's Learning Library

Hardcover: 48 pages

Publisher: Random House Books for Young Readers; First Edition edition (October 26, 1999)

Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

The perfect first space book for those almost-readers, *There's No Place Like Space* takes us on a whirlwind tour of our solar system, with a few constellations thrown in for good measure. Cat in the Hat (along with beloved Thing One and Thing Two) straps on his space suit and rhymes his way among the nine planets, presenting important facts along the way. Where else could your preschooler learn phonics and astronomy at same time? "A planet can have satellites that surround it. Uranus has lots of these objects around it" is just one example. This is a fine addition to the library of any young stargazer--few books are written with this many facts furnished in such an easy-reading manner. (Preschool to early reader) --Jill Lightner

Kindergarten-Grade 3-Fans of Dr. Seuss's favorite feline will enjoy learning through rhymed couplets and cartoonlike illustrations similar to the originals. Each book combines basic facts with interesting trivia to introduce readers to topics that are sure to be of interest. From Bugs: "Here is a riddle/I learned from my mother./How's a skunk and a ladybug/like one another?/When danger is near,/it is easy to tell-/they suddenly give off/a terrible smell!" While the grammar is off, Seussian rhyme is rarely totally correct ("thunk"). In Space, readers learn, "On Venus the weather/is always the same-/hot, dry, and windy,/with no chance of rain." The familiar format and entertaining text are sure to appeal to beginning readers. Maura Bresnahan, Shawsheen School, Andover, MA Copyright 2000 Reed Business Information, Inc.

This is a fun book! I am sad that it doesn't have Pluto anymore! :(But I guess Pluto is no longer a Planet! It will always be to me though! Other than that, I loved this book! It's a great way to teach your kids the planets.

The perfect mix of fun and education for our space-loving little one! Fun to read, educational for us all (helps you recall what you already know), and it's Seuss, how can you go wrong?!

My son and I love these books. They're very educational, but also really fun to read. I'd highly recommend this book or any of the others in this series to anyone with kids - they're guaranteed to enjoy them!

Great kids book combining the familiar Dr. Seuss characters with a bit o' science. My daughter enjoys having it read to her, and I'm glad to include a little bit of STEM topics into something fun for her (and me).

One of my favorites for my kids!! It's fun and rhyming without the normal annoyances of the original Cat in the Hat (I find the original annoying). Plus, you get to learn about space!

Not Dr Seuss, but a fun read before bed. I ordered this with a star projector night light for extra fun.

Another fun rhyming book in the Dr. Seuss Learning series. Fun rhymes and factual info. It may be a bit difficult for a beginning reader so read it to your child. It's a fun book

Not usually a Dr Seuss fan, but this one is written by another writer and is full of accurate information in its fun text. Love it!
