

American Democracy Now

Synopsis

American Democracy Now transforms the Government course through innovative, adaptive technology that makes government relevant to today's students. The Then, Now, Next framework provides contemporary examples and historical context that challenge students to think critically about how the American Democracy will continue to evolve.

I took a college course, American Government. Renting the book is easily the smartest option. No reason to spend \$100 or more buying it. Easy to ship back when course is complete. SAVE THE BOX & PACKAGING IT CAME IN SO YOU CAN SHIP BACK JUST AS EASILY. IF RENTING, THERE IS NO ACCESS CODE. I knew this going in so wasn't caught off guard. I just wanted to have the book as well.

I liked the fact that the book was a hard cover, but the book wasn't much help for the price I had paid. I wouldn't recommend it unless you NEED it, but the condition was great. It shipped fast with no damage.

Does what it says on the tin.

If this textbook is required for your American Government class, rent the download copy for a HUGE

savings. I started the semester viewing it on my laptop and ended reading it on my new HP Slate tablet. It can only be viewed with Kindle for PC app which is compatible with a tablet as well as a desktop or laptop. Lots of interactive features and added content to reinforce the concepts. I was not required to buy the digital key to the online features.

I really enjoyed having a new book, as well as it being affordable enough to get a new book. Thank you!

I got this book for class. I love how it is written and it is easily understood. However, it does not come with code, had to buy it separately .
