## Customer Reviews

The boy loved it. He found it instructive.

This was purchased for my sons music class. It works ok but the new versions are so much more interesting for the kids. I think the teachers need to upgrade and just buy the teacher edition so that the young musicians have more fun. Don't get me wrong, this will teach them but the new versions have some new and improved techniques.

Perfect beginner music book

We don't have a local music store so it was great to find this online. Works wonderfully for beginning

trumpets.

Great book for beginning band. Comes with the discs as well. Great quality and you can't beat the price.

As described and a good price. Would definitely do business again. Thank you!
