Customer Reviews

I found myself laughing out loud, had the light bulb go off in my head many times, and had many great reminders to take care of me! Great, empowering book for women in any stage of their relationships, whether the relationship is with someone else or restoring the relationship you need with yourself! Highly recommend

Every female out there needs to read this book. It not only raises your confidence it builds a better perspective/guidance about dating men. Women need to work on their self-worth by learning to say NO and being more grounded with themselves. Most women these days are afraid they will lose their man if they don't do what they ask. Always do the opposite of what men ask. They will respect you more when you do nothing. They need to hunt and chase you b/c you are worth the effort. This is how you will keep your value in a man's eyes. Men like challenge. If you give in too quickly you lose your value. This is why you need to read this book. It helped me learn the mistakes I made and what I need to do the next time around.

Awesome book

Besides the numerous grammatical and punctuation mistakes (cringe-worthy improper use of semi-colons and the word "latter") and overall lack of clever wording and lots of cliché phrases, it is an extremely sexist book. So basically, we're back in the 1950s where women had no power at all? I'm all for chivalry and gentlemen, but not even offering to pay the check? 21st century, hun. Not only that, but the author contradicts herself (saying that a woman looks needy if she constantly needs a man to tell her she looks pretty but later saying that a man will always make

a woman feel beautiful, just ask him how you look...like...????). Sorry but not everyone is cut out for writing, especially if they don't have anything that the internet couldn't tell you. The first half of the book was unbearable, but I did get more somewhat useful information towards the end. My point is, there are waaay better books on this subject out there. Don't even waste your time.

This woman knows what she's talking about. Read her other book as well. Simple and effective strategies for empowering women in relationships.

My favorite part is at the end when the examples of what a clingy woman does and what a confident woman does.

read it and you will understand my rating.
