Best Sellers Rank: #758,733 in Books (See Top 100 in Books) #74 in Books > Cookbooks, Food & Wine > Cooking Methods > Microwave Cooking #2283 in Books > Cookbooks, Food & Wine > Baking

Customer Reviews

General Electric Microwave Cookbook(The New Revised)

I had a GE cookbook that I really liked and used constantly but it was falling apart from old age and lots of use. I found a replacement for it on but ordered this one at the same time as a back up. The other one is the identical one to what I had, this one a little different and it's fine but I don't use it as much as the one I've been so familiar with all these years.

Arrived on time, as described, intact, lots of good information and recipes in this new revised addition.

Just needed the chicken teriyaki recipe from the past.

Arrived promptly and in excellent. It is a great cookbook with recipes for meats, vegetables and desserts. Looking forward to lots of good eating.

Uneven power from center toward edges.

I really wanted the first one, not the revised one. This one doesn't have all the recipes the original one does. I will keep looking for a copy.

I find this book has very useful method of cooking shellfish. The lobster comes out perfect. Has recipes which are very useful and not generally considered microwaveable.

I needed to replace my old cookbook that was water damaged. Everything about the order went smoothly. I am very satisfied. June Dunaphant
