Global Economic Issues And Policies

Synopsis

This introduction to all aspects of international economics, business and finance is the clearest guide available to the economics of the world we live in. Written in a highly engaging style, packed full of up to the minute, real world case studies and pitched at introductory level, the book does an expert job of drawing students in and will leave them equipped with a comprehensive toolkit and methods and essential facts.

Customer Reviews

Joseph P. Daniels is Professor of Economics at Marquette University, USA. He and his co-author David VanHoose are also the co-authors of International Monetary and Financial Economics with Economic Applications (2004). David VanHoose is Professor of Economics at the Hankamer School of Business at Baylor University, Texas, USA. He was previously Editor for Monetary Economics with the Journal of Economics and Business. He is the author of E-Commerce Economics, also published by Routledge.

Good book for anyone hoping to learn basic issues with global economics, I would recommend the read. Book came in excellent condition

The book was exactly what I expected and the delivery was quick.

The book is missing the page numbers and the problems at the end of each chapter are missing

numbers to each respective question. Please correct this problem and allow those of us who already purchased to get the updated copy. My email address is Mark@Zuri-Investigations.com and .com order number: D01-8418384-7386651 Order Total: \$62.59.

Book is very detailed and has terms on the sides of the pages for easy reference. Great basic book for understanding Economics.
