Exploring The World Of Foxes

Synopsis

The facts and fun of life as a fox. With their catlike faces, big ears and fluffy tails, foxes appeal to youngsters, but children may not know that a fox can smell prey deep in the snow and that some can climb trees. Young readers will learn about the various fox species, such as red foxes, arctic foxes, gray foxes and swift foxes, and they will read about what it would be like to be a fox pup. Photographs of adult and young foxes in their natural habitats and sidebars with storylike content round out this rich portrayal of foxes in the wild. In the Exploring the World of ... series, Firefly Books is pleased to present an exciting new nature series produced especially for young readers who are eager to learn more about the wild animals they find especially appealing. The books are packed with facts and offer outstanding value. Clear text in large type and vivid photographs with explanatory captions describe the animals' physical attributes, and storylike narratives about their daily life -- where they live, what they eat, how they hunt, how they communicate, how they raise their young -- present a complete picture of each animal.

Customer Reviews

Tracy C. Read is an editor and writer who has a special interest in nature and the environment. She lives in Kingston, Ontario.

Bought this as a gift for a bright eight year old. It was exactly what I was looking for. Beautiful

photographs, lots of text, good reading level. I did not read it, so can not vouch for the information in it, but I would buy again for a child's research or fox-loving child's gift.

This book is a quick read with lots of pictures. My eight year old picked it up and read the whole book in about 30 minutes without encouragement. He was very interested in the red fox we see at night when walking the dog. It has lots of pictures and general information.

My son LOVES foxes and this was perfect, well laid out and he is really learning a lot about all different types of foxes.

Very informative book. My 7 year old daughter loved it. We read it every night until we completed it. Then we used it for sentence writing in our homeschool curriculum.

Nice book with lots of info about foxes. My 10 year old grandson loves it!

Purchased this as a gift for a friend's kid. I read through it first, of course! Foxes are my favorite animal so I have researched them a lot independently; I found this book to be thorough, fun, & engaging with excellent photographs throughout. Most people will enjoy this and learn something along the way.

A gift for a little girl. She loves foxes and this book.

Got this for someone as a gift and she loves it!
