Delmar Learning's Clinical Handbook For The Medical Office, Spiral Bound Version

Synopsis

Delmar's CLINICAL HANDBOOK FOR THE MEDICAL OFFICE, 3rd Edition explains the medical assisting duties performed in offices and clinical settings today. Organized in a chart format for quick reference and easy reading, the book explores documentation, terms and abbreviations, telephone assessments, lab and x-ray procedures, commonly prescribed drugs, and much more. This ideal reference for anyone in ambulatory care also includes sections on OB-GYN and pediatric screening and procedures, as well as an all-new, coordinating pocket guide--for medical assisting on the move!

Customer Reviews

Currently a faculty member at Columbus State Community College, Michelle Heller has worked in health care and health care education for the past 30 years. She has received a variety of "Outstanding Teacher" awards from institutions in which she has taught, as well as the Ohio Council of Private Career Schools and Colleges. A frequent presenter and the author of multiple textbooks, Heller has served as both director of education and director of the Medical Assisting Program for the Ohio Institute of Health Careers. She also serves on the ABHES Medical Assisting programmatic accreditation committee.

Love!!! I am currently heading out to my internship in this field, I was introduced to this book by my professor, It has all the common medical procedures, abbreviations, and even things like mail and

telephone procedures in the office. It is going to come in handy while I am navigating through my internship. I also love that it has common procedures for the pediatrics and obgyn offices!! Definitely a good buy whether just starting clinical procedures, medical lab, going into internship or just wanna refresh on your skills.

great~!!

New book, but arrived with damages (tabs not in good shape). Had to return it and no other copies were available.
