Customer Reviews

After I ordered this, I realized I don't actually own anything that plays CDs anymore (except my car). Too bad this didn't come with a download code or something. I'm sure it's a great accompaniment, but I still haven't actually heard it. I should have saved myself a few bucks and just bought the sheet music. (I'm giving it five stars because that's on me, not the product.)

My son is the violinist. Has been playing Meditation somewhat by ear. The sheet music with CD accompaniment has helped him considerably. Anything to help the 15 yo master the instrument is worth a lot to me.

Came neatly, no bends.

Beautiful and well-presented. If the audio is available with only the violin I would love to buy it. I play piano and would like to accompany just the violin part.

beautiful music

The sheet music is clear and easy to read and the piano disk makes a big contribution to the learning experience.

I am just an amateur violinist, but it presents me with a challenge I desired.

The cd has less than 5 minutes of music, hardly enough to even get ready for a meditation. It is useless. I was not interested in buying a partiture. I looked to see if I could return it, but it is too late. I had bought it for my mother who is in South America and once she tried it, she said it was useless, I brought it back to the US to return it, but unfortunately, I am stuck with a product I do not need as I am not a musician. Not interested in it. The sale is misleading.
