Customer Reviews

Thank you to the author, Dr. Baker, NP. This book is invaluable to new NPs or seasoned to start their own house call practice. It's written in a conversational, no nonsense way. I am an NP with many years experience and have wanted to attend her onsite class, however I haven't been able to. Now I can read & re-read this book full of pearls. Highly recommend!!

It is clear that Dr. Baker is an experienced, savvy, business oriented practitioner who loves caring for the elderly population and readily shares her experiences and knowledge of starting a house calls practice.

Having done home health as an RN for 13 years and eventually transitioning into House-Call as a sole practitioner, this is a book for any provider going into House-Call. Short and straight to points.

I'm an NP but I don't think I could have a house call practice...I'm a psych NP, for one thing. But I enjoyed this book very much. It was entertaining and valuable, & made me feel a part of the author's world.

This book is a God sent! It really helped me get a clearer understanding of what I needed to start my business. I would recommend this to the world!

This was a well-written concise but thorough book about what it takes to open up a house call practice. Dr. Baker is engaging and endearing while maintaining her professionalism and authority on the topic. Her patients in Louisiana are blessed to have a fine practitioner working on their behalf.

Awesome book. Recommend buying. Helpful tips to get started. Great book for someone already practicing as well. Must read if you are thinking about a housecall practice.

Enjoyed this book. Had some valuable information on how to start a House Calls business. I will use the information during my venture.
