International Standard Bible Encyclopedia

Synopsis

This massive encyclopedia is a tremendous topical resource that covers thousands of topics and issues important to Biblical study by nearly 200 scholars (including greats like B. B. Warfield). It will be invaluable in Bible study, as one pastor put it “Of all the books I have I consult none nearly as often as the ISBE. I find it particularly valuable for topical studies and historical backgrounds. The material is extensive yet to the point| I have found the ISBE to be theologically sound. I highly recommend this book to any and all who desire to have a deeper understanding of God’s word.” This is the original (theologically conservative) edition

Customer Reviews

What sets this version apart from the other ISBE Kindle offerings is the wonderful navigation. Table of contents is by each letter of the alphabet. Then under each letter is each article by alphabetical listing. There is also the ability to jump to the linked Bible references and back again to the article. All in all a great reference for Kindle. I have the newest Paperwhite and it works fine.

I've had the hard copy for almost 40 years. For what you pay for this on it's a great buy. Now I don't have to leave my chair to pull it off the shelf. This comes in a five volume set, and is almost exhaustive for 99+ % of anything you want to know. It is a great investment for anyone.

Great general resource, although it appears dated in matters historical because of being an old edition. Still, it gives a wealth of data in Biblical subjects that make it well worth having it.

Very handy to use and very complete

Well worth purchasing.
