# For My Grandchild: A Grandmother's Gift Of Memory (AARP®)

## Synopsis

Today's grandmothers lead full and active lives that include everything from working and traveling to taking classes and volunteering. But that's no surprise. Through the years, they have enjoyed many rich and wonderful experiences, and now it's time to share them. This unique memory book gives a new generation of grandmothers a way to do just that. Your grandchildren will love finding out more about you, a fascinating person in your own right. The coolest fashions in high school, how you became engaged, your role models, and the values you cherish most are the types of details that your grandchildren are really interested in. They'll also like learning about their ancestors to gain a better understanding of themselves. For My Grandchild will help you open up that dialogue with the special young people in your life. There are straightforward fill-in-the-blanks for specifics such as family-tree information. And you'll find broader questions followed by plenty of space for writing in longer, more personal answers. This keepsake volume also includes places for pasting in photos and mementos that you would like your grandchildren to have. Use these pages to pass on traditions, such as your famous cookie recipe, and to offer wisdom, such as an inspiring quote, in a contemporary, appealing way. Tell your family's story in For My Grandchild and create a strong connection between generations.

## Book Information

Series: AARP's 50+®

Diary: 72 pages

Publisher: Lark Crafts (November 1, 2005)

Language: English

ISBN-10: 1402723253

ISBN-13: 978-1402723254

Best Sellers Rank: #48,540 in Books (See Top 100 in Books) #13 in Books > Parenting & Relationships > Family Relationships > Grandparenting #19 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Scrapbooking

## Customer Reviews

Bought this for my Mom to fill out for my children based on the reviews that stated it would work better for a non-traditional family since my parents are divorced. Decided against her filling this one

out and purchased a different one due to the fact the items are more open-ended and my Mom is someone who doesn't write a lot and prefers more short answer type items. The pages are glossy so it would be interesting to see how a pen would hold up once it is written on. I also don't care for how light the font is... definitely not for someone who doesn't have good vision.

This book is a fill-in-the-blanks question and answer journal for a grandparent to give to a grandchild. It asks leading and personal questions such as, "Where did you meet Grandpa?" and "What did you like about him?" and provides plenty of room to describe your thoughts and tell the story. It is a thought- and memory-provoking process which will delight an older grandchild from around tween and up, in my estimation. You should enjoy filling it in, as well. I recommend it completely. Taking the time to fill in the blanks will be a great time for the grandparent, and reading it will be fun for the grandchild. If the grandchild is older, this book will be a precious look into a grandparent's history. It also makes a good gift for a loving Grandma.

I bought this book for my mom for Mother's Day. It is a perfect fit for my family since it only devotes 4 pages to the grandpa (my parents are divorced) and can be ignored or filled out briefly. I did quite a bit of research before purchasing this book to find one that did not devote to many pages/questions to grandpa. This book is about grandma's memories and I believe there is a matching book for grandpa's memories if the grandparent's are divorced or still together.

I have gotten 4 of these books! I can not tell you the joy they bring me. I went to visit all of my living grandparents and got their histories and was able to go through all of their photos! Who knew a simple book could strengthen the bond you have with your grandparents? I could never explain the gratitude I have for the author and product.

I made this book for my 2 year old granddaughter, I was fortunate enough to go back 7 generations with pictures!! There are blank pages in the end that I used for current photos of her and I together and ended it with a nice letter to her on the last page. I added stickers and life quotes throughout the book and it came out amazing! Everyone I've shown wishes someone would've done this for them. I'm currently working on one for my grandson.

My wife received a similar book to complete for our grand daughter and when she found out our sister-in-law was becoming a first time grandmother, she wanted to present her with a grandmother

memory book. We were amazed at the large selection offered. We were happy with the selection we made, even though it differed slightly from the book my wife had received. Our sister-in-law- was thrilled with the book, she did not realize that such a book existed. Although all books you offer are similar, we were very happy with the details and memory prompts this particular book offered.

I bought this for my mother to fill out for our newborn. This book is a thorough account of a grandmother's life. It contains page after page of questions about her childhood all the way through to being an adult. There are places for pictures, funny memories, favorite recipes and other bits of nostalgia. My mother commented on how much work and how detailed it was so if you are not that into journaling, scrap booking or talking all about your past, this might not be for you. I am thankful that my mother did this for my baby so that she will have a better understanding of who her grandmother was and is. I will have to purchase the grandfather one soon and If its anything like this one, I will be thrilled.

This is so cute as a gift for grandma and to child in the future.
