Eyelike Stickers: Baby Animals

Synopsis

They're reusable! The sticker book series that kids love has a new addition: EyeLike Stickers: Baby Animals. Each book contains 400 full-color stickers that are amazingly detailed and lifelike in quality and are designed to be stuck on, peeled off, and stuck on again without tearing or losing their "stick." The books' inside covers are glossy illustrated backgrounds on which kids can create lively and original sticker scenes and then change them whenever they like. Packed with roly-poly pandas, round little bunnies, sweet puppies, fuzzy owlets, and pink piglets, Baby Animals is pure, unadulterated cuteness on every page.

Book Information

bought these stickers to give to our pediatric patients at work and I ended up keeping some for

myself because they are so adorable. They are quite big and very easy to peel the sticker backing off. The only thing I didn't like is there are a lot of repeats on each page which is ok because they are all cute, but there are so many cute animals in all colors I felt like they could have given more variety. Still love them!

I am an elementary school nurse and I use these to cheer up the little ones. They have plenty of stick and stand up to a few reapplications and playing with them. Lots of choices and there are a couple of each animal so there is no fighting over them!

Arrived very fast and as described. Cute Stickers. A variety of sizes and shapes which is nice. I checked each page of stickers from the book I got and all were cut properly and easily removed. The two pages to put the stickers on are cool, I like that they are heavy duty, but I wish there were a few more pages.

I love these peel and stick stickers. I use them to decorate my planners and personal journals. There is a huge amount of them and a wide variety. They look like real photographs of pets...that's why I like them so much!

So cute! My 23 month old is obsessed with stickers, and animals, so she gets such a kick out of these. She likes to just put them all over herself (and me....) so we don't use the reusable pages, so I can't really speak to how reusable they are if you just put them on those pages. A few of them have ripped in the process of taking them off the page - definitely a little tricky for chubby little toddler fingers. Great product overall and great price for the number of stickers.

This sticker book is wonderful and you can't beat the price. The stickers are adorable and in various sizes: some small, some very large, and everything in between. They end up all over the house, but they don't leave residue behind. They are also great for helping a two year old recognize so many different animals. I highly recommend the "Baby Animals," sticker book in particular, but I'm sure all of them in this series are great.

My sons new obsession is stickers and he puts them everywhere, luckily these stickers come off so easily. I'm talking about my floors, walls, leather couch etc are covered in stickers and I can peel them off with one try!! Totally worth it plus they're so cute.

Don't get me wrong, I absolutely love this brand of stickers. I rated it so low because this particular book came with at least five pages where the stickers would not come off the page. I have never had this problem when I have purchased the book in the store.
