NATIONAL GEOGRAPHIC KIDS inspires young adventurers to explore the world through award-winning magazines, books, website, apps, games, toys, television series and events and is the only kids brand with a world-class scientific organization at its core.

These books are great! My two year old son spends so much time putting the stickers in the right place and coloring the pages. It's a great distraction to bring while traveling, waiting at the doctors, etc.

This whole series is wonderful for keeping kids busy at restaurants, etc., when there's wait-time involved and you don't want them absorbed in a screen. Great for road trips, too!

Shipping was fast, it arrived the next day. My 3 yr old daughter loves it. It's a great activity book with lots of extra stickers. It features very colourful pages of different sea creatures which encourages children to identify each with fun.

The pictures and stickers are amazing. Great color quality and detail. There are a TON of stickers. This is probably the best activity book we have ever had.

My toddler loved this book. If you have a kid that likes stickers and Finding Nemo, this is sure to be a hit. Beware: all clown fish become Nemo...no matter how many times you say not all clown fish are Nemo.

I love these...I use them with my 2 year old twins and this is our 4th book! I've also bought them for siblings of new babies...keeps them busy for a while!

Ordered this as my niece lost hers from a subscription from National Geographic, to stop the tears we places the order. It arrived very fast and she's very happy. My family has had National Geographic in our home for years!

Incredible book with stickers galore and a place to put them. Each page has an outline of the needed sticker and tells you what page to find them on.Plus extras!I can't imagine using ALL the stickers. There are THAT many!
