It has em all and as far as I know there are no others. Detailed accurate. This is a big book, not a little book and definitely not a guide, this is to help you determine every pokemon in the games both x and y and where to find them and stats, power ups, it is detailed. If you are looking to find every one of these little creatures this is what you will need. Worth the price!

I'm just a stickler for size. It matters. The smaller guide gave me a headache to read and was cumbersome to keep open when playing. This allows for more of a harmonized play/ready session.

Was just what the 8 year old girl wanted for Christmas. She's a happy camper.(from the mom, man is some of the writing small!!)

So it does not have the ability to search the Pokedex guide by location or for the likelihood of encountering Pokemon. You won't know which Pokemon to expect in a certain location, or if they

only have a 1% appearance or 40%. Other than those features, it is as expected.

This was a great book to show you all the evolutions of the Pok  mon and shows you what can happen after the story ends.

Helpful guide but could make some more alterations in other areas of the game.

This book is awesome for my son and his Nintendo 3DS

Product was in good condition
