Colorful File Folder Games, Grade 2: Skill-Building Center Activities For Language Arts And Math

Synopsis

Make the most of your class time with colorful games that children can complete in centers or at their desks! It's easy to keep students on task with the fun, skill-building materials. This resource is comprised of 20 full-color games that can be assembled with ease; just glue the games onto file folders and cut apart the game cards. Colorful File Folder Games is the perfect tool for children who need a little extra help. Covering a variety of language arts and math skills, the games are idea for practicing phonemic awareness, letter-sound correspondence, alphabetization, counting, visual discrimination, money, telling time, place value, and pattern recognition. Children will enjoy playing these games over and over again!

Customer Reviews

I'm disappointed with this book so far. I mainly bought it for the math games, and was disappointed that the number combinations cannot be changed. It's a set number of combinations, but you cannot make your own. Once you have 10 or so memorized, there is no use for the folder. This is coming from a homeschooling mom's perspective. It would have been nice to have had the ability to make our own combinations which would have made the game folder useful longer.

I got this file folder games book because next year I am teaching 2nd grade for the first time and

thought it would be good to have some games for them ready. I like the games that were in the book. I also have this same version for first grade. It will be a great start for the year and has great skills that all students will need to learn and review.

These are so much cheaper and well made than printing file folders on the internet.

It is a great book to have to create centers. My kids are just not on this level to fully use them.

I am very pleased with this book especially since it has great games for 2nd grade and was a great buy.

This book is exactly what my SpEd students needed to help them with their skills. It is a great supplement to their learning!!

It didn't hold my son's interest. Wasn't quite what I expected

Best way to teach, through fun.
