Customer Reviews

First, let me note that I received an earlier version of this coloring book. The artist informed me that since I received my copy, two things of note have occurred. One, the cover is no longer matte but is now a glossy black and two, you will see a slightly blurry dolphin design in my video flip-through. That design has been removed from the current version of the book for quality issues. Now, to the review. I really like the variety of animals in this 50 design coloring book. They range from sea to land to air animals. They come from a variety of continents. It's too bad about the dolphin as it is a beautiful design apart from being blurry in printing. Hopefully, it will make a re-appearance in a future coloring book. There is a nice level of detail which will make coloring these animals lots of fun and a bit challenging. I like to go a little crazy and give my animals fur or feathers in colors you would never see in real life. The designs are centered nicely on the page. The designs are printed

on one side of thin white. The pages are not perforated but the artist has left ample room to cut a page out if you choose to do so. The binding is glued rather than sewn, so you can have it cut off if you wish to have sheets rather than a book. The designs all have finished elements or framing around them so I have a natural stopping point when I am coloring. I really like this as it helps give work a more polished a finished look. All of my markers and gel pens bleed through this paper and coloring pencils work well with it. As the backside of the page is blank, I can use a heavyweight paper or chipboard beneath my working page to keep ink from leaking through. Chipboard can be purchased at an office supply store or on-line fairly inexpensively. I can reuse it many times over, so that is becoming my standard blotter sheet. I was provided a free sample of this coloring book for test and review purposes.

This is an amazing collection of our best loved animal species from around the world, you will find Owls, Bears, Squirrels, Birds, an Elephant, Ocean life, a charming Bunny, Deer, a Panda, a Mouse, a Bison, a Hedgehog, Foxes, an Eagle, House Cats, a Snake, Horses, a Giraffe, a Lion or two, a Turtle, even a Koala and Penguin too, plus many more. Intricately and meticulously adorned in flowing geometric patterns with a few adorned in leaves and/or flowers every single image will inspire you and spark your imagination. The cover picture is included in this book and is representative of all of the illustrations as far as the meticulous attention to detail, in a flowing artistic style, using a variety of intricate patterns that will inspire you. You will want to color every single illustration in this book. My school aged grandchildren love this coloring book. They use Bic Mark it or Sharpie ultrafine markers and spend many quality hours using their imaginations, coloring with cousins and siblings and of course Grandma.

1. This (8 1/2" x 10 1/2") 50 Illustration coloring book is printed one illustration per page, on medium weight bright white paper.
2. Most of the images include many small details, with a few less detailed for variety so Ultra Fine Markers, and Colored pencils are my coloring medium of choice for this book.
3. All images are centered on each page and end 1/4" to 1/2" inch from all the edges including the edge with the binding.
 - a. This leaves enough room to easily color each illustration in its entirety.
 - b. This leaves enough room to remove the pages with a box knife, my preferred method; I use a ruler, a box knife and place a piece of cardboard under the page to prevent cutting the next page.
 - c. This is enough room to take this book to an office supply store and have them cut the binding off, to release all the pages from the book. This gives you individual pages for your coloring party, coloring club, and perfect for students.
4. All markers bleed through the pages of this book, I just place two pieces of paper under the page I am coloring to prevent damage to the next image.
- 5.

I am adding images to help you decide if this is just the right book for you, also sometimes the look see function is not working and many older devices do not always allow you to watch videos. (Pictures take a while to post)Received a free style for evaluation and unbiased review.

My fiancé absolutely loves this coloring book I gave him for Christmas! He is already spent several hours coloring and is working on the jellyfish! Absolutely beautiful and a wide variety of animals and it types of designs to choose from! He did remark there were a lot of hearts hidden in some of the photos, which I did not notice. However, it is a gorgeous book with lots of pages, definitely worth the price!

Love this coloring book! It might be my new favorite. The animals are very intricate! The pictures lines tend to be a little washed out and grey looking but I found when coloring with markers those turn out to be the best looking pages. These are one sided sheets but I still put another paper between the bottom page just in case. The pages are not normal 8.5 x 11 but I don't mind it being a tad smaller! Overall amazing book for the price! Can't wait to color them all!

People get really excited about adult coloring books. Most I think are horribly overpriced. This one wasn't, and the photos are decent. Paper quality is decent, although you will need to put a backer board in if you use gel pens or markers of any kind. I would buy this again.

I bought these coloring books as a gift for a group of my friends for a Christmas party, they were shipped and delivered on time and they were in perfect condition. The designs are very intrinsic and I am sure they are a lot of fun to color! My friends were all very excited to give it a try as they have heard it is very relaxing and stress relieving. I am not sure if any of my friends have tried using markers on the pages so I do not know if the ink bleeds but colored pencils were also gifted with the books and they all said they work wonderfully. The reason I gave this only stars is because there is a lot of white space on some of the pages, the pictures are a little small and I feel it is just wasted space. I would recommend these to anyone looking for a good quality and good price coloring book that is satisfying for adults. I intend to purchase a few more for a few of my residents at the nursing home!
