Here in Argentina it is not usual home schooling, therefore we have no literature about it. My daughter has recently moved to another state, I live in Buenos Aires, and she asked me to look for books dealing with this subject. I had not a better idea than contacting ! It was interesting for me too. I did not know anything about it. I am learning! I am 79 years old!.

It's not all that often I give reviews on but I just had to comment on this amazing book. A wonderful resource for the homeschool parent or anybody with an avid interest in their child's learning. Full of unique and doable games, activities, crafts to aid in teaching your child. I could not put this down. Even once I read it, I have gone back time and again to re-read it to make sure I'm not forgetting about the many amazing ideas. Linda, thank you for making this book. It has been such a blessing to me as a teacher to my varied in ages children. I just had to tell you!!!

I can't say this is a bad book. GREAT ideas for smaller kids. Just not much I can use for my 7th grader that will interest her.

Bought this book for my daughter who is homeschooling her my granddaughter.

I enjoyed all of the fun things that I can do with my kiddos!

I love all the different ideas that this book provides. We haven't done a lot yet (we started homeschooling in September), but it definitely has a ton of options and suggestions.

Excellent book I learned about teaching teens. That it is important to let them learn independently and power points are important. The author Debra Bell is a special Lady who wrote a excellent book. I am happy she shared her knowledge with us. Thank you Debra Bless you and your family and friends. With Love, Mary Lynn

Fantastic book!! I recommend this book for anyone that has kids, is around kids or works with kids! And not just at school age either - there are so many fun games you can play here and adapt to any age, even preschool. And it's not just for HomeSchooling Mums either - these are great ideas that can help any mum give their child at school that little bit extra help while still having fun. Such a fun book, so many fun ideas that will have your child learning without even realising it and you'll be having fun too. A must have for every mum!!
