The Forensic Pharmacology Of Drugs Of Abuse

Synopsis

A well structured reference work reviewing the five main classes of drugs of abuse that figure prominently in forensic work: alcohol, the benzodiazepines, the opioids including heroin, the stimulants including amphetamines and cocaine, and cannabis. It begins with an introduction to drug classes, a practical guide to specimen collection, explanation of pharmacokinetic concepts and measurements, techniques used to analyse drugs and the importance of the concepts of tolerance and dependence analysis. There are then seven sections for each drug class covering nomenclature and source (legal and illegal), pharmacokinetics and metabolism, analytical methods for detection in biological fluids, expected and adverse effects in humans, issues of tolerance and dependence, and finally toxicology.

Book Information

Hardcover: 462 pages

Publisher: CRC Press; 1 edition (August 15, 2001)

Language: English

ISBN-10: 0340762578

ISBN-13: 978-0340762578

Product Dimensions: 9.4 x 1 x 6.7 inches

Shipping Weight: 2.4 pounds

Customer Reviews

It is an excellent book and is a valuable contribution to this specialist area of toxicology. **BTS Newsletter** So well written and well referenced is this book that it is difficult to highlight one chapter that shines out above the rest. An absolute bargain at $\pounds 65$! **ACP News** This book is...easy to read...and the summaries, tables and monographs certainly add to its accessibility to us 'non-toxicologists'. It certainly achieves its aim of assisting in the interpretation of toxicological information, and is recommended for students undertaking special study modules. **student selected** components in toxicology, or forensic medicine. I would like also to recommend it to trainee pathologists and consultants alike, for assisting in the interpretation of toxicological results in

Coronial autopsies.Wales Institute of Forensic Medicine

Olaf Drummer is at Victorian Institute of Forensic Medicine. Morris Odell is at Monash University.
