The Modern African American Political Thought Reader: From David Walker To Barack Obama

Synopsis

The Modern African American Political Thought ReaderÂ compiles the work of great African American political thinkers throughout the twentieth century and up through today to show the development of black political thought and trace the interconnectedness ofÂ each person'sÂ ideas through their own words. From abolition, through civil rights, Black nationalism, radical feminism, neo-conservativism, and the new Black Moderate, Angela Jones has collected the key readings of the most important figures in black political history. Each chapter includes an introduction to the themes of the chapter, a biographical sketch of the person profiled, and some of their greatest works, chosen to show the range of politicalÂ subjects of interest to African Americans. From Radicals like Angela Y. Davis to Conservatives such as Michael Steele, this anthology showcases the diversity of political thought within the African American community. It is a must for anyone interested in African American history and politics.

The Modern African American Political Thought Reader is an important and timely resource for the study of African American History and Culture. Peniel E. Joseph, author of *Dark Days, Bright Nights: From Black Power to Barack Obama* Cutting through the 'noise' of a new class of mainstream media pundits, The Modern African American Political Thought Reader provides a great social and intellectual service by connecting an illustrious past and present of African American thought

production. The discourse, and the actions this discourse inspires, is an invaluable contribution to a much-needed delineation of the nuances within black historical and contemporary political thought. Most importantly, *The Modern African American Political Thought Reader* necessarily troubles our conception of "the" black community as a singular, unified entity. Instead, Jones' volume reveals the plurality and collisions of intellectual debate that are crucial to shaping a vital vision of African Americans with a linked destiny, but disparate strategies for achieving social justice. Kimberly Springer, author of *Living for the Revolution: Black Feminist Organizations, 1968–1980*

Angela Jones is Assistant Professor of Sociology at Farmingdale State College, State University of New York

Learned a lot from this book. Never really differentiated between African Americans and their manner of viewing political viewpoints. Essays were extremely insightful and i intend to re-read after completion to continue to benefit from these intellectuals.

I requested "The Modern African American Political Thought Reader" & got a COMPLETELY different book in the mail.
