ABCs Of Science (Baby University)

Synopsis

Simple explanations of complex ideas for your future genius! Written by an expert, The ABCs of Science is a colorfully simple introduction for babies (and grownups!) to a new science concept for every letter of the alphabetâ•from amoeba all the way to zygote. Each page in this science primer features multiple levels of text so the book grows along with your little scientistâ•read just one line of text per page to start or linger on the longer descriptions as baby's vocabulary expands. This alphabetical installment of the Baby University board book series is the perfect way to introduce basic concepts to even the youngest scientists. Baby University: It only takes a small spark to ignite a child's mind!
