Wayne Rooney: My Story

Synopsis

One of the most talked about stars in the world of soccer, Wayne Rooney now talks about . . . Wayne Rooneyâ€¢no-holds-barred. Wayne Rooney is barely twenty-two years old, and he's already one of the finest soccer players in the world. Colorful and controversial, he playsâ€¢and livesâ€¢with an intensity that's unmatched on and off the field. With remarkable candor, he now tells the true story of his life. From his working-class upbringing on the back streets of Liverpool and his Premiership debut as a sixteen-year-old phenom to his ebullient entrance on the international scene in the 2004 European tournament and the raw drama of the 2006 World Cup, Wayne Rooney: My Story is an honest and inspiring account of a prodigiously gifted youngster and his meteoric rise to fame and fortune. It is a riveting tale of adversity and triumph, of champions and championships, of a private life that never could escape the headlines . . . and of a remarkable athlete whose destiny was forever altered when Manchester United came calling in the summer of 2004.

Customer Reviews

Wayne Rooney is my favorite footballer, so I jumped at the chance to grab this book for our kindle. You have to know when you're buying it, it is a fairly straight-forward autobiography, so some of the grammar isn't the greatest. Obviously, some of his more controversial moments are quite one-sided, but it is quite interesting to get his take on some of the more questionable times in his career. Beware, this might not be the book for small children wanting to learn more about Wayne Rooney, as there is some fairly strong language throughout, and he touches on issues like prostitution. But,

for the adult reader, I thought it was quite a good read. I would highly recommend to anyone who enjoys Man United and especially Waza.

I thought this was a fun, easy read. My son's a big fan, and I had told my husband to read it to get some insight into player development in the UK. I thought that a lot of his stories were interesting and did not find it to be nearly as "raw" as some previous reviewers had suggested. Being such a celebrity at a young age can be hard to navigate, and I think he has done it quite well given the incredible microscope they're under. Looking forward to getting the next book.

This book is hard to explain. Its exactly like an autobiography should be. This book goes over Rooneys life from baby days to 2008 when this book was released. I read this book and could not put it down. I, living in USA, don't have soccer supporters in my family so when Im like "Its funny because Rooney did....." I get this look that tells me "I'm not like you, I don't like soccer, do I have to listen to this" but either way this book is humorous to me and inspiring. If you like Wayne Rooney and you don't get this then you are missing out on alot!

Great gift for an adolescent male soccer player who loves Wayne Rooney and his style of play. Oh! I forgot Manchester United is also the key.

Look at me, I've got everything, but I'm not affected by it. I married my long-time girlfriend and she's clever and has got heaps of money of her own. I've spent thousands on gifts for her and she's done the same for me. But I'm just the same as I was when I was a kid. I still love going out into the street and kicking a ball around like I always did bla, bla, bla.

I liked the easy writing style in this book. It makes for a light read but I thought that it could have had more depth. He is a superstar and wished that came through more.

Decent read. Great game detail. Recommend for someone looking to get started on learning about one of England's best players.

Very much enjoyed the book being a huge Wayne fan
