The Deaf Community In America: History In The Making

Synopsis

The deaf community in the West has endured radical changes in the past centuries. This work of history tracks the changes both in the education of and the social world of deaf people through the years. Topics include attitudes toward the deaf in Europe and America and the evolution of communication and language. Of particular interest is the way in which deafness has been increasingly humanized, rather than medicalized or pathologized, as it was in the past. Successful contributions to the deaf and non-deaf world by deaf individuals are also highlighted.

Book Information

Paperback: 240 pages

Publisher: McFarland; 1 edition (December 9, 2011)

Language: English

ISBN-10: 078646397X

Customer Reviews

"Pays attention to the cultural heritage and identity of this often-ignored population...a good primer...recommended." --Choice
"Tracing the cultural history of deafness --from prehistoric times, through middle-age Europe, up into early America, and throughout the last 100 years" --SciTech Book News

Melvia M. Nomeland, who is deaf, of deaf parents, has taught deaf students for 25 years. She is a co-developer of the Deaf Studies Curriculum Guide currently in schools and has contributed articles to a variety of publications. Ronald E. Nomeland is a professor emeritus at Gallaudet University where for 35 years he was a professor and department chair. Born into a deaf family, he has written numerous articles and served as president or officer of several national organizations serving deaf people.

got it for class

I need it for a Spring Semester class that I am taking for an Arts & Humanities credit...it seems to give a lot of history regarding Deaf Issues Past & Present. It is very informative, I am learning a lot that I had no idea about how that community feels.

Text for ASL, one of the most thorough histories of the Deaf Community.

Like I said, it was a required text book but finding it available on the Kindle was a bonus. It's a good read and a decent starting point for those interested in learning about Deaf Culture.

Used this book for a report on the Deaf community. Very informative.

This is a well written book. Since I have worked with the Deaf for many years, I find this quite interesting. The information is valuable. A Deaf friend told me about the book and I ordered it. I have recommended it to others.

Okay, another book I had to buy for a college class. It is informative and not too boring like some textbooks.

Very interesting read!
