If You Give A Kid A Cookie, Will He Shut The F--k Up?: A Parody For Adults

Synopsis

Before they Go the F**k to Sleep, they need to Shut the F**k Up. If you give a kid a cookie, will he shut the f**k up? That is the question at the heart of this hilarious, deeply honest, profanity-laced book for parents who will do whatever it takes for a moment's peace. What really happens when you give in to your child's tantrums? The events that follow this seemingly simple act will test parents to the breaking point... while entertaining the millions of us who have been there ourselves (and lived to tell). Also a cautionary and instructive tale for new parents, *If You Give a Kid a Cookie, Will He Shut the F**k Up?* is a must-have for every family library collection. Just keep it on the top shelf.

Customer Reviews

Not quite as funny as some others and it doesn't flow or rhyme like some others, but still... for its intended pun and laughs it was good.

This book was far from what I expected. The authors were really reaching too far and I feel they were not as realistic as they should have been. If you want to read an adult book that will make you laugh I suggest you order *Go the F*** to Sleep*.

I bought this for my sister and brother-in-law for Christmas because the title seemed like the book would be something they would appreciate. The content just wasn't what I was expecting. I could see how some might think it is very funny, but it really wasn't relatable. I ended up not giving it to them for Christmas and just gave it to them ahead of time. I wish I had checked it out at the local

bookstore before making a hasty purchase. The title was the funniest part!

This book is funny and really parodies the other books very well. If you are looking for a funny read, this is a good book. I wouldn't spend the money on a hardcover, as you'll probably only read it once and then your done. Unless you plan on passing it along to your friends. Then a hardcover might last longer.

When I bought this book, I mistakenly thought it was a children's book along the lines of "If You Give a Mouse a Cookie". AHAHAHAHA Good thing I read it before I gave it to my 7 year old! Definitely an adult read, although my high schooler also enjoyed it.

for all the parents out there, don't deny, you love your kids, but can drive you crazy. Funny to read this book to adults who do not know what they are in for

Not as funny as I thought. Seemed more like a story of kids from an alcoholic father. Was expecting more of a "family guy" type funny. But I still love the parody none the less.

bought it for my sassy sister in law and we both got a laugh! She had just had a new baby and we gave it her with a book for her son. She appreciated the joke in her sleep deprived state!
