Copper Chain (The Shifting Tides Book 3)

Synopsis

When a desperate king threatens Dion and everything he loves, only dangerous magic can keep him safe. Dion, now king of Xanthos, is finally in command of the naval fleet he's always dreamed of. But his hopes for peace are jeopardized when King Palemon, in dire need of ships to rescue his starving people from the frozen wastelands of the north, invades the Salesian city of Malakai. Too weak to confront Dion directly, Palemon turns to magic: mysterious copper chains from the lost civilization of Aleuthea, which have the potential to control dragons and Dion. With the people he loves in danger, and his own freedom at risk, Dion's only hope is Chloe and the power she struggles to tame.

Customer Reviews

I have been captivated by the story of Dion and Chole since the first book. The fantasy of the Eldrens becoming dragons is fantastic. Being able to use my imagination is good exercise for my brain. Look forward to the next book.

This is a great addition to the story line. We are now starting to really get to know the characters and we are watching as they evolve.

I can't imagine not reading this book if you have read the others in the series. I had to move my phone charger to another room so I wouldn't try and slip one more chapter in!

Surprises but good ones. Very entertaining

This series keeps getting better and better. Can't wait till book four.

This is an enthralling book, and leaves the reader wanting more.

I loved these three books, it was hard to wait between them. This can not be the end, there must be more!

I always feel like I'm right there sailing or fighting beside the characters. Can't wait to read the next book in the series.
