## Customer Reviews

Ketogenic diet is well explained. The book also shows how this kind of diet works. It discusses the benefits that this diet could give. And it provides a step by step guide how to do it effectively. It also provides recipes that are very easy to prepare and very delicious. I would definitely recommend this book not only for those who want to loss weight but for anyone who wants a healthy life.

Lots of information in this book, Love the recipes that I've made so far, will be making more easy to follow guide. This seems like it is going to be a much easier diet to follow than most. It allows me to have dark chocolate of course in small dose but still not depriving me of my chocolate is a good thing. If you want to try a new diet I would say pick this one.. the recipes are very tasty and the author doesn't sound like a dr. he breaks it down for you. Will be using more of these recipes I've posted a picture below of my favorite so far. Give it a tryeven if you find one or two recipes it makes this book worth its cost! The only thing that I think that would make this better would be pictures for some of the recipes but other than that I have no complaints!

This is a great step by step ketogenic diet explaining all the dos and don't of this very well known diet. It has several recipes also to use. The print is also big enough to see so you're not squinting to

read. It explains to first contact your doctor before you start it, my niece just told me her doctor told her to go on it! So it looks like we're going on it together! My oldest sister had went on it to avoid being put on meds and lost several pounds.

This book is great it has recipes is shows you what you could eat it's easy to understand and read. It's nice print not too small. If your trying to lose a few pounds this is a great book to help you understand more about the ketogenic diet.

Book cover is really attractive that is the reason I get this book on the recommendation of my friend to serve delicious recipes to my family. These recipes are delicious and my love one also like it so I am very happy to get this book thanks.

I like this one and the recipes are healthy and tasty, and its not that difficult to make. I feel much healthier now and I have more energy than I used to have thx.

Informative with some good tips
