Best Sellers Rank: #1,132,698 in Books (See Top 100 in Books) #80 in Books > Children's Books > Education & Reference > Foreign Language Learning > Russian

## **Customer Reviews**

Finally a language book that teaches practical vocabulary that isn't always found in the textbooks. With large comic book style pages, vocabulary items are depicted in a color drawing that covers most of the page. On the page borders are small individual depictions of the vocabulary items with the name beneath it in Russian, there are no English translations (except in the glossary) because none are ever needed. For example; the first page shows a color drawing of various rooms in a house. One room is the bath. The border of the page will have a picture of a toilet and its name beneath in Russian, then it is shown in the context of the bathroom without a label so the reader can self quiz. An excellent resource!, good for beginner to intermediate level readers.

Our Russian teacher was super excited about this book, so it must be good. The drawings are a little dated, but it has all sorts of practical words in Russian AND with the rough English spelling of how to pronounce them. We also got "My First Russian Phrases," which is also good (and has better illustrations).

I love this book. It helps me learn Russian words and gives the pronunciation. It is a great visual

way to build vocabulary in Russian but it does not include any grammar.

Cool book

Good condition.

Helpful for beginners.

But newer version with internet linked pronunciation guide.

The book is very colorful and active. The words are everyday words you use around the house. I think my kids will enjoy this book and we'll get a lot of use out of it. The only draw back is the English words are in the back of the book. I thought it would be more useful to have the English and Russian words written next to each other. I'm going to pencil in the English next to the Russian for easy reference.
