Human Geography

Synopsis

Fellmann et al's Human Geography introduces students to the scope and excitement of human geography and its relevance to their daily lives. This edition continues to convey the breadth of human geography and to provide insight into the nature and intellectual challenges of the field of geography itself. The authors pay special attention to gender issues and assume no previous experience in geography on the part of the students.

Customer Reviews

Arthur Getis is a retired professor from San Diego State University, San Diego. Judy Getis is now deceased. Judy was a professor at San Diego State University, San Diego. Mark Bjelland is a professor at Gustavus Adolphus College. Jerry Fellmann is deceased.

the book came very quickly and was in great shape, i just didnt end up needing it as much for class, but i loved that it was not ruined and it was a great buy

Thanks for everything, luxury attention.

Excellent item.

Book arrived very fast and was in excellent condition ! Needed it for college course but they were

sold out, glad I was able to get it for almost half the price

This is a textbook so I didn't choose it. It is interesting and has a lot of information that I need to pass this class.

The book was in pretty good condition. However, I paid extra to get it here fast...and I didn't get it for over a week and well in to my classes. If someone pays extra, they should definitely be satisfied.

The book was in amazing condition. It was much better than described. I received it quickly, and could not have been more happy with the seller. Would buy from a hundred times over.

This is exactly what I needed a cheap and reliable text book! Book was in great shape, even had the pull out map in the back!
