## Customer Reviews

There is a lot of useful information but not the easiest read.

This is a very thorough book. I purchased the book for an event planning class. At first, I thought it would not have been a good purchase. But after looking through it, it was a GREAT BUY! I highly recommend. This is a book that you want in your library. :-)

Excellent product.Very good price.

This book as good information and A LOT of it. If you're looking for more technical information about

event planning, I definitely recommend this book. Unfortunately, it's really boring and I barely made it through. I recommend it as a resource if needed but not an introductory textbook.

It is a complete resource. It was a present given to my boss and she is extremely grateful for receiving such a useful book. It will definitely be a guideline for her course in Hospitality.

great condition

I'm pleased I purchased this book. It wasn't a requirement for a course, however, it was suggested to purchase. There are great ideas for event planning and overall education.B. Jones

Great price for book and in great condition
