Justin Miles is a professional adventurer who has undertaken expeditions and adventures in some of the world's most extreme environments. He uses his experiences to support charities and education projects, many of them for children. Justin turned his passion for adventure into his profession after recovering from a 1999 car accident, which resulted in brain injuries that left him

having to learn to walk and talk again.

**INTRODUCTION** Planet Earth is huge and full of awesome places to explore. With this book you can discover what life as an explorer is really like and learn some vital explorer skills. There are also plenty of ideas for mini-adventures that you can do right now!

Great book

This is great if you are looking to interest an outdoorsy kid! Has some great information in it with very vivid and descriptive pictures. Even shows you how to put together your pack effectively. Information is broken up into sections and looks less overwhelming than an adult field guide etc. Catches the attention of those not so into reading. Book and pages are thick and sturdy as well. Great product overall.

Bought for my son who is a total outdoors kid. he loves it

Good

Justin's adventures and information have lit up the faces of my students. They love this book and many have ordered it on their own. The pictures are amazing and vivid. The text is engaging. Talking with him about his adventures and then reading this make a classroom explode with children who want to be adventurers!

I bought this book for my kids - 8, 10 & 15. It contains some very important and practical information. More importantly though, it is well written and interesting. We have spent a lot of time with this book since buying it. I like that you can skip around and only read the sections that you are interested in. As an adult, I too greatly enjoy this book!

I bought this book for my classroom because I have some budding explorers. They really love this book! It has many tips and tricks for outdoor exploration, and many vibrant pictures. It's informative and includes some of the author's stories about his own adventures too, which adds to its authenticity. Because my class liked it so much, I purchased it for my son and my nephew. Hopefully it gets them encouraged to spend more time outdoors!
