This book was required for my Music History course, even though it was a required textbook I have to say the wealth of knowledge as well as the incredible number of full pieces of music this book has is staggering. I would recommend this anthology for any serious musician to have as reference.

Great Book! Fast Shipping! Thank you!

The book binding was on the completely wrong side. Instead of flipping the pages from right to left, they have to be flipped left to right. Quite odd how that would happen.

Well written. Incorrect information from the previous edition was edited and corrected.

we tought on renting.... we boughth it righth away, enjoying this book and teacing more at our music academy.!

I purchased this for school, and the numbering between the book and the anthology do not always match. It is annoying while testing and only having a limited amount of time in which to do so.

What can you say about an overpriced book your child has to have for 1 semester of college...

Political history.
