Customer Reviews

When I moved to Spain from Denmark in 1990 I had no idea what was behind the coastline of the Costa del Sol. So when I finally ventured into it, I was totally taken by surprise. There were so many mountains and such untouched natural beauty, that I could hardly believe it. So I started to explore it. I had the idea that if I myself liked to combine an outing to say, a white village, with a hike in the surrounding area, then other people would too. So this is what I have been doing and am still doing. I go to the places of historic and cultural interest and then I find a hike near by. In that way your excursion will not only give you exercise, but also insight into the culture and history of Spain. There is so much to see and so many old mule paths to walk on that you will be overwhelmed. "On Foot in Andalucía" has 40 excursions into the real Andalucía, and I can guarantee that you will love it. It is exciting, dramatic and wilder than you have imagined. It is anything but boring, so be prepared to experience Spain from a whole new perspective.

Just behind the Costa del Sol you find a veritable cornucopia of untrodden paths through untouched, breathtaking nature. The variety and scope of AndalucÃ- aÃ´s magnificent nature must be one of SpainÃ´s best kept secrets and will enthrall even the most experienced hikers and explorers. This book takes the reader by the hand and shows the way into the fantastic hinterland of Southern Spain. Do come along - it is all lying there waiting for you...

This is great! However be advised it is primarily for those traveling by car to reach the hikes. Your options will be narrowed if traveling by public transit.
