Ethics, Crime, And Criminal Justice (2nd Edition)

Synopsis

This comprehensive, provocative text meaningfully examines ethical theories and their application to current issues, controversies, and professional scenarios in law, crime, and justice. It introduces students to the foundations of the study of ethics and morality; examines prominent moral and ethical themes, conflicts, and struggles in criminology and criminal justice; and explores the conceptual and practical value of key ethical concepts, principles, and arguments. This edition is extensively updated and revised for greater clarity, cohesiveness, and accessibility. An all-new chapter demonstrates practical application of normative frameworks to ethical dilemmas, and another largely new chapter introduces game theory, evolutionary psychology, and related concepts. Readers will find expanded discussions of social contract, cognitive neuroscience, Carol Gilligan's ethic of care, and much more.

Book Information

Paperback: 288 pages

Customer Reviews

CHRISTOPHER R. WILLIAMS is an associate professor of criminology at the University of West Georgia. --This text refers to an out of print or unavailable edition of this title.

Used for school - bought online to save money vs. spending much more @ the school campus.

Very informative, well written.

This is a text book for a college class.

Is there a way to return this rental Kindle ebook? The system does not allow me to do it!!!!

good. helped me pass my class. great!

This book was a success for my class.

This textbook is well written for both the professional and the student. Most law enforcement/corrections academies have ethics as part of the curriculum. However, the textbook goes a little more in depth. I now purchase all of my textbooks through Amazon.Com because of the great prices and fast delivery service. I wish I had known about .Com when I was an undergrad because of all of the money I could have saved!!!

It is an easy read, and is very interesting. I really enjoyed the style of writing, because it doesn't feel like a text book.
