# Contemporary Project Management

## Synopsis

Students learn to master the most proven methods in project management as well as exciting new techniques emerging from current industry and today's most recent research with Kloppenborg's CONTEMPORARY PROJECT MANAGEMENT, 3E. This text introduces time-tested manual techniques and progressive automated techniques, all consistent with the latest PMBOK Guide and integrated with Microsoft Project 2013. The book's focused approach is ideal for building strong portfolios that showcase project management skills for future interviews. All content is consistent with the knowledge areas and processes of the fifth edition of the PMBOK Guide to give students an advantage in becoming Certified Project Management Professionals (PMP) if they choose.

## Customer Reviews

"The textbook serves my course very well. It focuses more on applied project management instead of IT projects." "I've been using Kloppenborg since it first came out (having met [the author] at a conference while I was planning my course for the first time). I really like the book, which is why I have continued using it. I like that it is succinct, laid out intelligently, and includes good examples. . . . I even appreciate the typeface and page organization--it is much easier on the eyes than other texts which are much too densely packed. . . . As project management textbooks go, Kloppenborg's is very student friendly. I also like how it is so tightly connected to the PMBOK and to MS Project. . . ."

Timothy J. Kloppenborg is a Professor Emeritus of Management at Williams College of Business, Xavier University. He previously held faculty positions at the University of North Carolina Charlotte and the Air Force Institute of Technology and has worked temporarily at Southern Cross University and Tecnologico de Monterrey. His articles have appeared in MIT Sloan Management Review, Project Management Journal, Journal of Management Education, Journal of General Management, SAM Advanced Management Journal, Information Systems Education Journal, Journal of Managerial Issues, Quality Progress, Management Research News, and Journal of Small Business Strategy. Dr. Kloppenborg is the founding editor of the Portfolio and Project Management book collection for Business Expert Press, where he has edited 17 books. He has been active with the Project Management Institute for 30 years and a PMP since 1991. He is a retired U.S. Air Force Reserve officer. Dr. Kloppenborg has worked with more than 150 volunteer organizations. He has hands-on and consulting project management experience on six continents and has work with organizations such Duke Energy, Ernst & Young LLP, Givaudan, Greater Cincinnati Water Works, Intelligrated, Legrand North America, Kroger, Procter & Gamble, TriHealth, and Texas Children's Hospital. Dr. Kloppenborg has developed corporate training and undergraduate, MBA, and Executive MBA classes in project management, leadership, teamwork, and quality improvement. He also teaches PMP Prep classes. He holds a BS from Benedictine College, an MBA from Western Illinois University, and a PhD in Operations Management from the University of Cincinnati.

Bought it for school

While I don't like the content of the book that I'll have to learn from my class, this is exactly what was described, and cheaper than the bookstore.

The product name is incorrect. It does not include an access card for Microsoft Project. I notified when the first copy did not include the card, and they promptly sent another textbook. The second also did not have the card. I would give a third chance except my class has already started. I am returning the second textbook as well because without the access card the new textbook is not worth the extra cost. The publisher (Cengage) does not offer the textbook without the access card, so should return these books as defective.

Really boring and overpriced.

Got the job done for class.

It was very good

It was the book I needed for my class.

The kindle version is terrible. Significant portions are in pale teal text that is impossible to read. Not worth \$200.
