Has all the information needed to complete this course. The book does have some writing in it on certain pages through out the chapters. Some helpful some not.

bought for course

This book was bought as "used" but there was absolutely no sign that it was used. It also came in a timely fashion. I saved 3/4 of the school bookstore price. Definitely happy with my purchase!

I was very pleased with the shipping of this book. It only took 3 days in regular mail delivery. The book was in great shape! Thanks!
