Winter Jacket: Finding Home (Winter Jacket Series Book 3)

Synopsis

Book Three in the Winter Jacket seriesThere are signs everywhere if you know what youÃ¢â€”re looking forÃ¢â€”signs that tell you youÃ¢â€”re doing something wrong. Go back. Detour. Choose again. Do not collect two hundred dollars when you pass Go. But I hadnÃ¢â€”t paid attention to the warnings, too blinded by ambition and the desire to experience something new. Simply put: I was making a terrible, horrible mistake. Elle and Hunter have endured the disapproval of friends, family, and colleagues, but can their relationship survive the distance of nearly two thousand miles?

Customer Reviews

Wonderful as always. I really thought I couldn't become any more invested in a fictional couple after reading the first two books in this series, but I was wrong. This book had me so emotionally twisted in the most wonderful way that I never wanted it to end. Elle and Hunter continue to sizzle with not just their chemistry and attraction, but with their playful banter as well. If you've ever had to live through the challenge of being in a long distance relationship, this book will hit home for you. Every page was delightful; I laughed out loud, wanted to cry, and even felt the telltale signs of anxiety

gripping at me throughout certain scenes. I hope Eliza Lentzski has started a fourth book- I'm missing these characters already.

I have read all three books in this series and I am a little disappointed with this book. There seemed to be a lot of information about nothing. There was not enough communication between the characters. There was a lot the reader had to guess on. I loved the first book and the second was not up to par but I thought that a third would get it right. I agree with some of the other reviewers -- more needed to end this book and leaving a huge opening for a fourth for the series. Let's hope that Ms. Lentzski finds her muse again.

Fabulous read!! This is my favorite in the Winter Jacket series. The first book was really good while the second one was good but not as good as the first. This book, Winter Jacket: Finding Home, is amazingly good!! I did not want it to end!! It is such a great story...from beginning to end. The character development with both Hunter and Elle maturing on their own and together in their relationship was so nicely crafted!! The reader can tell that the book was wonderfully planned out...not rushed, not missing details and not boring. I recently heard that Ms. Lentzski sometimes has a difficult time writing sex scenes. It is so surprising to me because she writes them so well!!***Mild spoilers***: I loved the angst between Elle and Hunter when Elle gets back from California. I really enjoyed the "push and pull" between them. They are very much in love and are truly meant to be together. I cannot wait until book four to see how their love story develops. Do yourself a favor and read all three books!!

Read These books in Winter Jacket series!YOU will discover a great love story when you read this set of books. I read the three Winter Jacket books that Kindle Unlimited and Ms Lentzski have offered and loved every word. I can't wait to read the fourth book when it comes to or I hope gets it -Thank you Ms. Eliza for a lovely story.SkyBlueC

I stop reading sequel because it mostly end up ruining a good story. I was surprised by Winter Jacket New Beginning because I actually like it better than the first one. I was a bit intrigued about a third book and what a wonderful surprise was in it for me!! I truly recommend this series and to be read in order and then you will enjoy every single word in Finding Home. I feel by now that I know these characters so well and enjoy so much their development through the books. I truly appreciate that the characters seem so real and remain themselves even after all the growing they endure

through the three books. Ms Lentzski is a great storyteller and her stories are compelling, real, hilarious and so sexy you cannot go wrong with it. Finding Home is the kind of book I skip lunch to keep reading, and believe me that is not an easy task! The only issue is that I find myself begging that Eliza Lentzski keep going with these characters and surprise me again with a few more sequels like this!

I LOVED the first two books in the winter jacket series. I was very excited about the third one. The story is different than the others in that this one is a little darker and somber. It's still a good story and keeps you intrigued as you're reading....UNTIL THE ENDING. THE ENDING WAS JUST LACK-LUSTER. It was almost as if the author had to finish it rather quickly. I am not sure if there will be a fourth book in the series...there should be to save this one...if there is, will I read it? Hell yes. It's just book three's ending was boring..that's all..

Winter Jacket was the first book I ever read from this author and it has a special place in my heart and this sequel didn't disappoint. Talk about tugging at your heartstrings. This book took me on such an emotional ride with Elle and Hunter. It shows us that all relationships are meant to be tested at some point or another and I love the fact that we were able to take this journey with them and watch them grow. I was so crushed when I got to the end because I wanted more Hunter and Elle. Can't wait for the next installment and more of your magical stories... Must read for anyone!

this is the third installment of the winter jacket series. this one was heartbreakingly good at times for me because it chronicled the long emotional road and distance shared between Hunter and Elle. they ultimately evolve and are faced with a decision that will set their love back on or off course. I enjoyed the evolved emotional maturity of both main characters by the end... and mostly I appreciated the love they share. another solid work by Eliza
