Inventory Of World Topographic Mapping, Volume 3

Synopsis

This volume completes the International Cartographic Association's trilogy which has been prepared to provide an "Inventory of World Topographic Mapping", and contains specific details relating to the current coverage of states located in Eastern Europe, Asia, Pacific and Antarctica. The geographical positions of countries described are illustrated by means of a series of accompanying reference maps. The information supplied for each country consists of a text, including a brief history of the development of topographic mapping, geodetic data, map scales and series as well as extracts of maps and index sheets illustrating the present status of map coverage within that country. There is currently no other work employing the approach adopted in assembling this "inventory". This work is a comprehensive and important reference and source book for information in the field of topographic mapping.

Book Information

Series: International Cartographic Association

Hardcover: 466 pages

Publisher: Pergamon (September 1, 1993)

Language: English

ISBN-10: 1858610346

ISBN-13: 978-1858610344

Product Dimensions: 1.2 x 8.8 x 12.2 inches

Shipping Weight: 4.7 pounds
