ISBN-10: 0756690846

ISBN-13: 978-0756690847

Product Dimensions: 5.9 x 0.2 x 8.9 inches

Shipping Weight: 3.5 ounces (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars 17 customer reviews

Best Sellers Rank: #261,863 in Books (See Top 100 in Books) #116 in Books > Children's Books > Education & Reference > Science Studies > Astronomy & Space > Aeronautics & Space #222 in Books > Children's Books > Education & Reference > History > United States > 1900s #473 in Books > Children's Books > Literature & Fiction > Chapter Books & Readers > Intermediate Readers

Age Range: 7 - 9 years

Grade Level: 2 - 4

Customer Reviews

My nine year old daughter enjoyed this book. I purchased for her to do a book review on for school. She was interested in the content and it was easy to read. The book was shipped timely and arrived in excellent condition.

My 3rd grader needed these for a school reading project. He found out he was fascinated by the space program, especially when he learned his grandma was apart of the Apollo and Shuttle programs. A great buy for kids who love space and going to space.

Used this for a third grade homeschooler. He really enjoyed it. It was a good balance between informative and entertaining.

We purchased this book when our son was in preschool. Now, approaching 3rd grade, he still enjoys taking this one out periodically. He remembers facts and ideas about the astronauts and the space program. It is not a short read-aloud book and is definitely intended for children who can absorb larger nonfiction material. I highly recommend it to parents whose children are just beginning to learn about and have questions related to the first trip to the moon.

This is a great book. It was interesting reading from beginning to end.

This is a great book for young readers who are interested in space. My son loves the facts, detailed pictures, and fun in this book. He is my little astronaut and this book is a winner.

I am very happy with this book. It came quickly, and is currently being used in the classroom as a book that the students just pick up and read when they have free time.

My son enjoyed this book. It seems to be a good quality book.
