# Bone Metastases From Prostate Cancer: Biology, Diagnosis And Management

## **Synopsis**

This book presents up-to-date information on one of the hottest topics in prostate cancer, namely bone metastases. The most recent developments with respect to biology, pathology, diagnosis, and treatment are described, providing readers with an excellent understanding of the mechanisms of metastasis formation, the characteristics of metastases, their aggressiveness, and prognostic factors for treatment response. The coverage includes discussion of all of the best available options (laboratory, radiology, and nuclear medicine) for achieving early diagnosis and both established and novel therapeutic approaches. Detailed information is provided on hormonal manipulations, bone-targeted agents, vaccines, taxanes, and other treatments that are enriching the therapeutic armamentarium. The editors can be considered leaders in the field, with great experience in diagnostic and clinical oncology and research, and the authors are experts in diverse specialties. This ensures a multidisciplinary approach, mirroring the current situation in which treatment in patients with bone metastases is undertaken by a team of specialists and health professionals in a variety of fields.

## **Book Information**

Francesco Bertoldo, MD, is Associate Professor of Internal Medicine at the School of Medicine, University of Verona, Italy. Since 2003 he has been Chief of Bone and Mineral Metabolism Diseases and the Osteo-oncology Unit in the Department of Medicine, University Hospital GB Rossi, Verona, Italy. Dr. Bertoldo is a member of the Directive Council of the Italian Society of Osteoporosis and Bone Diseases (SIOMMMS) and of the Italian Society of Osteo-oncology. Since 2009 he has been a member of the Guidelines Committee of the Italian Association of Medical Oncology (AIOM) and SIOMMMS. In 2011 he served as coordinator of the Guidelines for Bone Disease in Prostate Cancer produced by the Italian Society of Urology. He has published more than 100 papers in national and international journals in the field of metabolic and cancer-related bone diseases. Francesco Boccardo graduated cum laude in 1975 from the Medical School of the University of Genoa, Italy, where he then specialized in Oncology. He started his professional career in 1977 at the National Cancer Institute in Genoa and is now Director of the Academic Unit of Medical Oncology at the Institute. In 1998 he was appointed Full Professor of Medical Oncology at the Medical School of the University of Genoa, Italy, where, since 2001 he has been Director of the Postgraduate Medical School in Medical Oncology. Dr. Boccardo has served as President of the Italian Association of Medical Oncology (AIOM) and was one of the founders of the Italian Society of Urologic Oncology (SIURO). Emilio Bombardieri, MD, is a specialist in Nuclear Medicine, Oncology, and Sports Medicine who is currently Clinical Scientific Director of Nuclear Medicine at the Humanitas Gavazzeni Hospital, Bergamo, Italy. In a long career he became Director of the Nuclear Medicine Division of the Istituto Nazionale Tumori, Milan in 1994 and Director of the Department of Diagnostic Imaging and Radiotherapy at the Institute in 2007. Since 1982 he has been Professor of Physiology and Endocrinology at the Catholic University, ISEF, Milan. Dr. Bombardieri has served as President of the Italian Association of Nuclear Medicine (AIMN), has

chaired the EANM (European Association of Nuclear Medicine) Oncology Committee, and was nominated President of the EANM Congress 2012 in Milan. He has published more than 400 papers in national and international journals, and several scientific textbooks in Diagnostic Imaging and Oncology. Laura Evangelista, MD, PhD, is a nuclear medicine physician at Veneto Institute of Oncology IOV IRCCS, Padua, Italy. Following a residency in Nuclear Medicine at University "Federico II" of Napoli, Italy, she worked as a research fellow at the University "Federico II" of Napoli, the Memorial Sloan Kettering Hospital, New York City, and the Mayo Clinic of Rochester, USA, focusing on PET/CT in breast cancer, prostate cancer, and other oncological diseases. She is a member of the Translational and Molecular Imaging Committee for the European Association of Nuclear Medicine. She has published about 100 papers in national and international journals in the field of nuclear medicine. Riccardo Valdagni has been Head of the Oncologic Radiotherapy Unit at the National Cancer Institute in Milan since 2011 and Head of the Prostate Program since 2003. Since 2009 he has been Vice President of the Italian Society of Oncologic Urology (SIUrO) and in 2010 he became a member of the Steering Committee of the multicenter international active surveillance protocol PRIAS (Prostate Cancer Research International: Active Surveillance). Dr. Valdagni is dedicated to the development of an integrated and multidisciplinary approach to prostate cancer. He has always been interested in psychology and psycho-oncology, and is a professor at the Il Ruolo Terapeutico psychoanalytic therapy center. He is the author of many international scientific publications in the field of Oncology. A A A A A
