Lee Judah Ames (January 8, 1921 â€“ June 3, 2011) was an American artist noted for his Draw 50... learn-to-draw books. He was born in Manhattan, New York. His first job at age eighteen was at Walt Disney Studios. He has since led a career as an advertising artist, fine artist, cartoonist, designer, animation in-betweener, illustrator, and as an artist-in residence at Doubleday. His series of 26 Draw 50... books take a friendly and minimalist approach to teaching drawing while the books often contain no instructional text. He enlisted in the military and served as a second lieutenant during World War II. He and his wife Jocelyn resided in Mission Viejo, California.

A wild and wacky collection of monsters and other fantastic creatures awaits you in this book, and by following simple, step-by-step instructions, you can draw each and every one of them, from the Bride of Frankenstein to Sasquatch. Start by gathering your equipment. You will need paper, medium and soft pencils, and a kneaded eraser (available at art supply stores). You may also wish

to have on hand India ink, a fine brush or pen, and a compass.

I got this for my 11 year old Grandson for a Christmas present and he loved it.. i also purchased a sketch pad and some artist pencils for him to use and before he opened any other gifts he had the pad and book open and was starting to draw monsters. His mom said he just loved the book, so easy to use with clear instructions. Any kid who has a artist streak in him or her would enjoy the book...

Ordered it for my 6 year old nephew who is very much into drawing right now. He likes to follow the step by step instructions and after working on a few pictures with him from various website, my husband suggest these books. We bought a few for him (monsters, cars and animals) and some are a little more complicating for him but he loves it and started on them right away.

As described. Great book for children who like to draw. Fast terrible shipping! A+

The Yoda, Darth Vader, and Frankenstein's Monster are worth the price of admission. There are a few (several) things in here that I can't imagine inspiring anyone's imagination or desire to draw them. The 'Dirts' defy explanation. As do the 'Creaches' by and large. Other than that, a fun book I would recommend it.

My 13 year old nephew said he wanted to try his hand at sketching... this was the perfect book to keep his interest and feel successful.

I like the concept shown to beginners on how to start to draw. It is not boring or tedious an there is room for your blossoming creativity using this simple and well-illustrated method.

Great instructions, easy to follow

My newpew loves monsters AND drawing, so when he got this for Christmas, he couldn't believe his 2 luck. Every time he comes over, he pulls it out of the closet and practices his skills (keeps him quiet too)!
