## Customer Reviews

When one thinks pothead, you don't think scientist or even green thumb. But this book proves the author knows what he is doing. The guide is comprehensive, with very specific information on

everything imaginable related to growing and protecting a weed supply. Very interesting and for someone who is serious about growing cannabis, this book should be their go-to guide.

This was probably one of the most educational detailed books I have read on growing weed. You can tell that the author is experienced and does a great job of laying everything out simply yet fully detailed. From the right lights to the best growing environments this book has it covered. Great training on indoor growing. Thank you!!

Great information, Lots to learn from this book, I recommend it 100%
