Lee Judah Ames (January 8, 1921 – June 3, 2011) was an American artist noted for his Draw 50... learn-to-draw books. He was born in Manhattan, New York. His first job at age eighteen was at Walt Disney Studios. He has since led a career as an advertising artist, fine artist, cartoonist, designer, animation in-betweener, illustrator, and as an artist-in residence at Doubleday. His series of 26 Draw 50... books take a friendly and minimalist approach to teaching drawing while the books often contain no instructional text. He enlisted in the military and served as a second lieutenant during World War II. He and his wife Jocelyn resided in Mission Viejo, California.

I bought this as a gift for my 12 year old niece who loves to draw. She was very excited to get it. My only complaint is that the drawings are very faint and somewhat hard to see.

Excellent art, strange combination. This book includes a majority animals (28), with mostly characters on the remaining pages (17). The rest are modes of transportation, structures and a few random other items like pumpkins and flowers. I'm sure my 10 year old nephew will love it. Just not so sure the characters are relevant or recognizable anymore. I remember many of the designs and characters from when I was young in the 80s. Still, there is much to be learned from sketching these characters. I do not recommend this book for younger artists as many of the designs are either complex or scary. Good quality book in great condition, fast shipping with prime.

Takes practice especially for proportions. But I was pleasantly surprised how some things turned out. I'm no artist but it's fun to do.

I bought this for my 11 year old but my 6 year old took right to drawing with these books. I was impressed with how well he was able to follow the steps so that his end product was recognizable as what it should be. My older child has not worked with the Draw 50 books yet but I plan to buy more for my 6 year old's birthday.

Purchased for my Grandson that is interested in drawing. He LOVED it ... which means Grammie loved it to! It was easy for him to follow and his drawings were absolutely amazing. He turned 10 on his birthday - for reference for child age. I will be looking to them for another book when he is finished with this one.

Nice for an art activity for teens who would like to learn to draw and need help getting startedGood for younger kids as well
